

# Installing on Kubernetes

## Overview

We recommend installing JFrog Mission Control on Kubernetes using the official [Mission Control Helm Chart](#) available on [Helm Hub](#).

The sources for this chart are available in JFrog's [charts GitHub repository](#).

### Page Contents

- [Overview](#)
  - [Installation](#)

## Installation

Detailed instructions on installing and upgrading Mission Control are documented in the chart's README.md file which is available on JFrog's charts GitHub repository:

[JFrog Mission Control Installation and Upgrade on Kubernetes](#).

### Available on Helm Hub

The installation and upgrade instructions for Mission Control are also available on Helm Hub:

[JFrog Mission Control Installation and Upgrade on Kubernetes](#)
